## MESSAGE FROM MANAGING DIRECTOR

Business, in essence, is about just two things—creating value and making a profit. If you make a profit but don't create value, you are a thief. If you create value but don't make a profit, you are a charity. The challenge of business is to do both.

From the above thought, we have started our entrepreneurship in 2007 under the name of eS-Trims Incorporation. Since then we are producing and supplying garment accessories to the leading 100% export-oriented garment industries in Bangladesh. In 2019 we have started our new journey replacing our previous name as eS Trims Limited.

eS Trims Limited is committed to providing top-class quality garment accessories to its valued customers. Our business model allows us to deliver the most cost-effective yet highest quality products and services. We are equipped with a stringent quality control system to guarantee the top-class quality of our products. Meanwhile, we aggressively maintain the most competitive price on today's market. We go the extra mile to make certain each and every order is handled with the greatest care, professionalism and accuracy.

We are proud to be recognized as a socially responsible organization. The way of our operation reflects great concern for the environment and keeps nature least affected. We use environmentally-friendly chemicals to manufacture our products.

On behalf of eS Trims, I express my deepest gratitude and appreciation to all our customers and suppliers for their continuous support and cooperation.

**Abu Hasnat Md. Rezanur Sohel**  
Managing Director, Es- TRims Limited

# OUR PRODUCTS

01 Printed Care Label

02 Woven Label

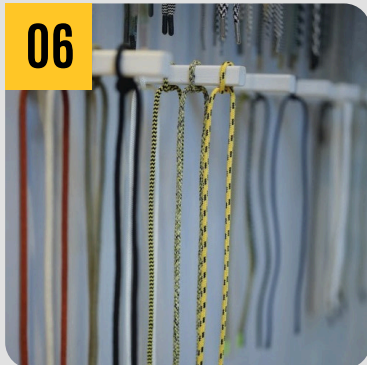

03 Printing & Packaging

04 Heat Seal

05 Digital Heat Transparent Print

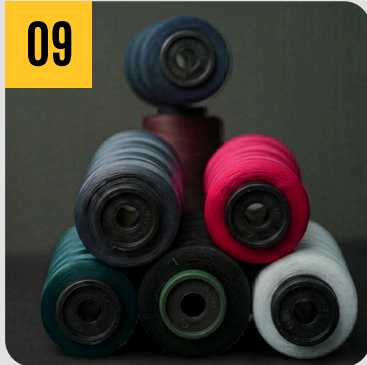

06 Drawstring

07 Thermal Sticker

08 Jacquard Elastic

09 Sewing Thread

# MISSION

We like to reach the highest level of expectation of our customers by offering top class quality products, just in time (JIT) delivery, excellent customer service, and adding value to the service, so that we can minimize and improve operations of the ready-made garments industry. Our associations with our machine and raw material suppliers enable us to deliver technical expertise which ensures our clients to receive the most effective and professional service.

# VISION

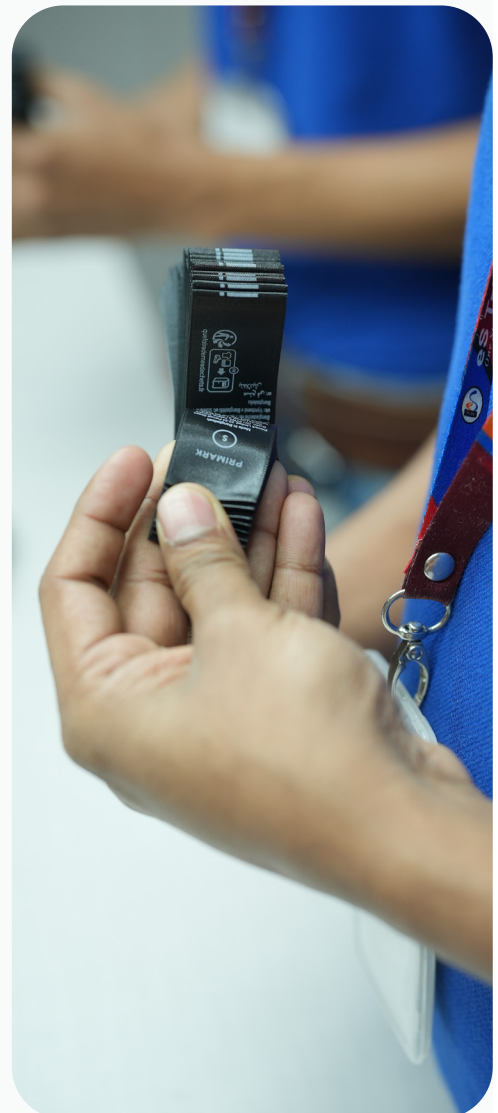

We want to be one of the best garment accessories manufacturers and suppliers through excellent customer service, deliver high quality products and keep commitment to each and every honorable buyer.

# BUSINESS OBJECTIVE

Making profit through customer satisfaction is our business objective. Building a long run relationship with our valued customers is the key of our success.

# CERTIFICATES

# PRINTED CARE LABEL

## LABEL PRINTING AND CUTTING MACHINE:

- 1 Unit of FOCUS Flexography 3 color (2/1) printing machine (Origin UK)
- 6 Units of 7 color (5/2) Label printing Machine (Origin China)
- 10 Units of Ultrasonic Cutting machines (Origin China)
- 2 Units of Dryer (Origin China) Design to cure printed labels in high temperature. At a time 30 rolls can be dried in this oven.
- 1 Unit of Infra-Red & Air Drying Machine (Origin China)
- 1 Unit of Hot and Cold cutting and folding machine (Origin China)

### Production Capacity:

Capacity for labels on coated or uncoated fabric is 0.80 million pcs per shift (8 hours per shift) if the label size is 80mm in length.

Capacity for ultrasonic cutting machines is 0.65 million pcs per shift (8 hours per shift) if the label size is 80mm in length.

# WOVEN LABELS

## 2 UNITS OF MULLER TAFFETA & SATIN MACHINE

### Woven Label machine

- 2 Unit of Muller (taffeta) machine (Origin Switzerland)
- 2 Unit of Muller(satin) machine (Origin Switzerland)
- 2 Unit of Hot and Cold cutting and folding machine (Origin China)

### Production Capacity:

Capacity for woven labels is 0.30 million pcs per shift (8 hours per shift) if the label size is 100mm in length and 13mm width.

Capacity for satin woven labels is 0.10 million pcs per shift (8 hours per shift) if the label size is 100mm in length and 13mm width.

Capacity for Hot and Cold cut & folding machine labels is 0.30 million pcs per shift (8 hours per shift) if the label size is 100mm in length and 13mm width.

# PRINTING & PACKAGING

## 7 COLOR OFFSET PRINTING MACHINE

### List of Offset Printing machines

- 1 unit 7 color offset printing machine – Heidelberg CD-74 (Origin Germany)
- 1 unit 2 color offset printing machine – Heidelberg MOZS (Origin Germany)
- 1 unit 2 color offset printing machine – Heidelberg GTO (Origin Germany)
- 3 unit 2 color offset printing machine – Heidelberg SORDZ (Origin Germany)
- 1 unit 4 color Digital offset printing machine – Konica Minolta (Origin Japan)
- 1 unit CTP plate making machine – Screen (Origin Japan)

# HANGTAGS

## MACHINES

- 1 unit AEM-800 Fully Automatic Die Cutting Machine (Origin Japan)
- Koten AKJ-800 Automatic Folder and Gluer Machine (Origin China)
- Koten TC-650 High Speed window Patching machine (Origin China)
- 2 units Polar Cut Machine (Origin Germany)
- 3 units auto Dye Cut Machine (Origin Germany)
- 5 units manual Dye Cut Machine (Origin China)
- 1 unit Foil Printing Machine (Origin China)

### Production Capacity:

Hangtag (Multicolor) production capacity is 1.20 million pcs per day. Photo Inlay/Cascade Boxes/Window Boxes/Paper Hanger/Hanger Card/(Multicolor) is 1.30million pcs per day. # DIGITAL HEAT TRANSPARENT PRINT

## DIGITAL HEAT TRANSPARENT PRINT

### Digital Heat Transparent Print Machine

- 4 Unit of (Digital Heat Transparent -DTF) Multicolor Automatic machine (Origin Japan)
- 1 Unit of Auto cutting machine (Origin Japan)

### Production Capacity:

Capacity for Heat Transparent labels on four color prints is 0.80 million pcs per shift (8hours per shift)if the label size is 100mm in length

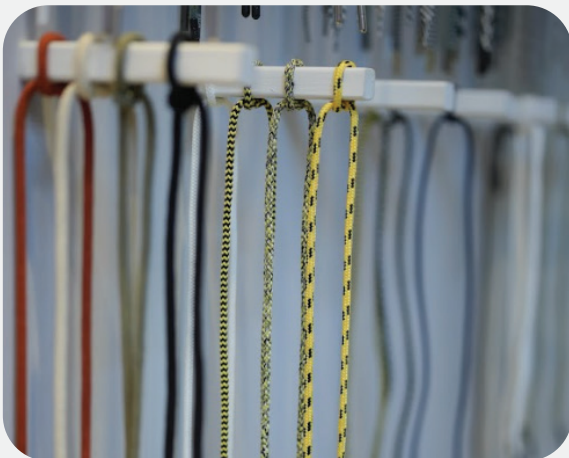

Capacity for Auto cutting machines is 0.50 million pcs per shift (8hours per shift)if the label size is 100mm in length

# DRAWSTRINGS

## DRAWING MACHINES

- 21 sets 16 heads Bradding machines (Origin China)
- 15 sets 32 heads Bradding machines (Origin China)
- 15 sets 48 heads Bradding machines (Origin China)
- 7 sets of Conning machines (Origin China)
- 1 set of Re-conning machine (Origin China)
- 2 units auto Tripping machine (Origin China)
- 1 unit manual Tripping machine (Origin China)

### Production Capacity:

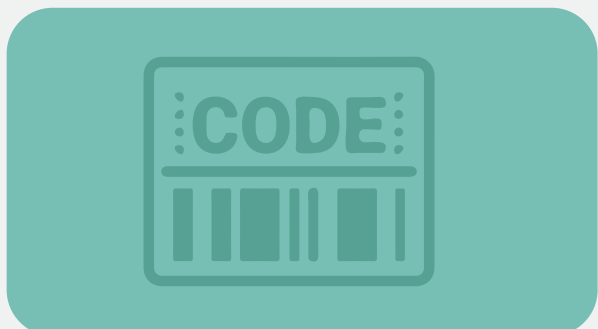

500,000 yards drawstring (any color) can be produced (12 hours working per day).

# THERMAL BARCODE LABEL PRINTER

## 10 unit thermal barcode printer machine

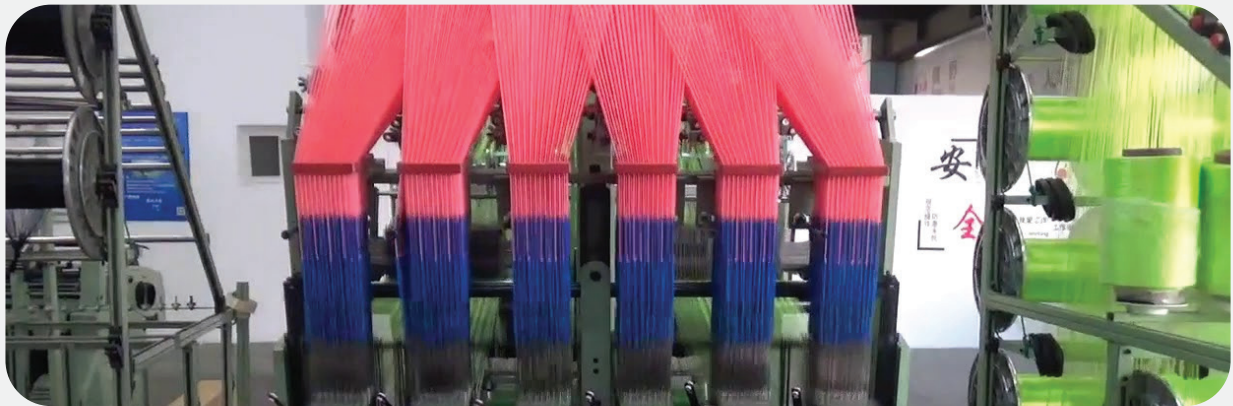

- 10 Unit of Thermal Barcode Label Printer. (Origin China)
- High-Quality Printing: Delivers sharp, clear prints at resolutions up to 300 dpi, suitable for labels with fine text, graphics, and barcodes.
- Max Print Speed: 356 mm/sec
- Print Length: 2591 mm
- Resolution: 300 dpi
- Paper/Media Types: Continuous, die-cut, notch, black-mark
- Max Tape Width: 104 mm

# JACQUARD ELASTIC

## MACHINES

- 8 sets of Jacquard machines (Origin Taiwan)
- 1 set of Warping machine (Origin China)
- 1 set of Calendar machine (Origin China)

Production Capacity:

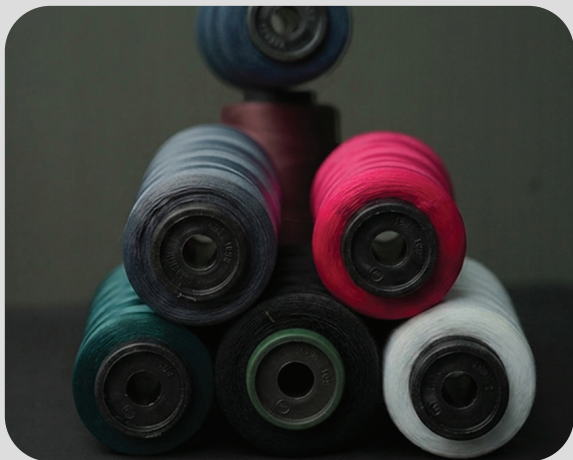

**17,000**  
Yards per day

# SEWING THREADS

## MACHINES

- 10 sets of fast sewing threads coning machine.

Production Capacity:

# 15,000

cones (4000 yards/cone)  
per day
